## BREND 413 SPORT

2000 KFPS Sport Stallion, Black 16.2 H

Brend has quickly become a farm favorite with his sweet nature and willingness to learn. He has been successful in national dressage competitions in Holland and the USA. Among his victories, the 2008 Third Level Adult Amateur Championships at the GAIG/USDF Region 1 Championships.

Brend has a friendly nature, but knows when to get down to work. His trot is elegant and supple with good reach and a lot of suspension. His canter is roomy and uphill with natural balance and an ability to adjust and collect.

Brend's offspring are very suitable as riding horses with quality gaits and suppleness, balance and willingness to work. They have excellent character and are good learners. Brend has a Star percentage of nearly 45% and he is Approved on offspring, which indicates that he has a positive effect on breeding and that his offspring have a more than average talent for dressage.

### Breeding Highlights

Approved on offspring

27 Star mares

6 Star stallions

22 1st Premie foals
